

App "My orders overview" technical information

Full text filter

Full text filter compares the entered search term with a concatenated full text representation of the relevant orders and returns partial hits as results. The following parameters are a part of the full text search:

- Ordering process name
- Order number
- Shipment numbers of all shipments connected to this order
- Order creator
- Status
- Total
 - including currency
 - in format dictated by the user's current culture settings
- Order date
 - in format dictated by the user's current culture settings
