

B-Op Api

When it comes to integrate your [b-op digital](#) with your internal IT landscape, you have several options to integrate them seamlessly no matter where your infrastructure resides.

Integration approaches

There two ways to integrate these systems:

- use the B-Op API, which is a product offered by [m-pioneers](#) allowing **your developers** to integrate your digital with your installations. This product is owned and maintained by [m-pioneers.com](#)
- have a b-op project partner like [m-pioneers](#) to build a custom integration between your internal systems and your b-op digital.

Standard-Schnittstellen für Lieferantenanbindung mittels erweiterung **B-Op Supplier-API**.

(Existiert schon, ggf. erweiterungen nötig, Standardprodukt von ZS DE, ab 2026 Verkauf für 49CHF

- zubuchbar im Onboarding-Prozess - Bezahlung mit Kreditkarte?)
