

Real-Time Collaboration

In supply chain environments real time information exchange in multi-level supply chains can deliver substantial value for customers and suppliers. This is by default delivered by b-op and ZUGSEIL without any extra IT cost or [any transaction fees](#).

Benefits

Real time information exchange between b-op peers enables with ZUGSEIL:

- Real-Time availability information across the supply chain
- Real-Time exchange of orders, payment information
- Real-Time fulfillment information along the entire supply chain
