

SAP bookkeeping integration

SAP is a global leader in booking and ERP software with which ZUGSEIL solutions regularly integrate.

As SAP is not based on b-op concept, it needs capabilities to handle multiple "digitals" in one tenant. To achieve this they have introduced in book keeping entities, which we need to simulate when interfacing with SAP:

- [SAP Buchungskreise \(Accounting areas\)](#)
- [SAP Kostenrechnungskreise \(Controlling areas\)](#)
