4	Appointment manager	Uploaded documents should be displayed in the screen where appointment is successfully booked	□
5	Appointment manager	Uploaded document should be displayed in the calendar as well: day and week view	□
6	Appointment manager	Default country in system settings is Switzerland, here for every user Germany is preselected, it should be Switzerland.	□
7	Appointment manager	Display employees business default Email and business default phone number and employees activity like for the manually added user	□
8	Appointment manager	Radio button "Show only available slots" should be switched on by default	□
9	Appointment manager	In the info tooltip in the day view and week view, days and month are not translated. DE, FR, IT	□
10	Appointment manager	Tablet view: Team appointment(teamleader right) - Instead of customer column, should be employee for whom appointment is booked (second image figma)	□
11	Appointment manager	Static search bar instead of dynamic on employee step	□
12	Return manager	From order overview when click on return user should be redirected directly to the "Return over order" tab, in order that user can return regular orders.	□
13	Return manager	Return employee step on small desktop (yoga lenovo) table is not really readable, if possible break points like for tablet	□
14	Return manager	In the confirmation screen return address is not displayed, should be suppliers address displayed	
15	Return manager	For transaction type and transaction number shipment and shipment number should be displayed, instead of expected shipment	
16	Return manager	"Add reason" is missing on the return over entitlement, when return quantity is more then 1, in order to assign different return reasons	
17	Return manager	Not possible to return over order, quantity cannot be added, reason as well, after a while message pops up that app is not respnding	□
