□

## Contents

- [1 Layout](#)
  - [1.1 Header pane](#)
  - [1.2 Positions pane](#)
  - [1.3 Summery sidebar](#)

## Layout

<

### Header pane

Header displays the number and the date of the selected return and offers the user an option to go back to the overview.

- **Return details is** the main heading
- **<return number> from <return date>**
- **Back** button is the button which leads user to the Team returns overview.

## Positions pane

Positions are the focal point of the return details page. All positions of return are displayed as blocks containing the following information:

- **Product image**- first gallery image is displayed
- **Product name**- which is the combination of product name and variant name, product number and configuration(if there is some) below it
- **Return quantity**
- **Return reason**
- **Status**
- **Explanation**- displays suppliers comment
- **Refund** displays total price of return products and below it amounts which will be returned to employee's account

## Summery sidebar

Summery sidebar contains information described below:

- **Details**- is title of the sidebar
- **Return**- displays return number
- **Credit note**- displays credit note number
- **Creation date**- is the date at which the return was created
- **Status**
- **Creator**- is the business participant who created the return. This may be the user themselves, but it can also be the assigned team leader
- **Org. Unit**- displays default Org.Unit of the user for whom return was created
- **Account assignment element**- displays account assignment element of the user for whom return was created
- **Supplier**
- **Return address**- displays suppliers default return address
- **Additional information**

At the bottom of the panel are 2 command buttons:

- **Print return slip** slip opens in a new tab
- **Cancel**
