ZUGSEIL CONFIDA

Our **Confida** product is a full end-to-end cross-company configuration solution which allows:

- **suppliers** to share solution spaces, which bears a [variant management solution](#)
- **customers** to configure products within their own [shopping solution](#)
- purchasing automation based on configuration and procurement data
- full P2P integration from purchase order to billing

Integrates with

- [Warehouse Management System (WMS)](#) - obviously configured items in stock need to be tracked
- [ZUGSEIL Shop](#) - which allows configuration of products
